

Welcome to the world of Wild Willy!

\$Willy is a meme coin that's as serious about fun, as a bunny in a carrot patch!

Wild \$Willy isn't here to revolutionize finance or save the world; He's here to make you part of something hilariously memorable.

Wild Willy (\$WILLY) is the digital embodiment of a mischievous bunny who's hopped straight out of a cartoon into the blockchain.

With big ears, a cheeky grin, and a penchant for causing light-hearted chaos, Wild \$Willy is the meme coin that's all about the giggles.

Wild Willy's Mission

Our mission?

To make investing fun again!

Wild Willy's primary goal is to provide a platform where the community can come together, share a laugh, and maybe, just maybe, see some wild returns on their investment.

Remember, this isn't about changing the world; it's about getting wild with our \$Willy.

\$WILLY Willynomics

Total Supply:

- ★ 1 Billion \$WILLY tokens
- ★ Initial Liquidity will be Burned

Distribution:

- ★ 50% of Total Supply Staked by team & Used to *Generate Fees*
- ★ 50% for sale to public

\$WILLY Willynomics - Meteora

Fees on Meteora will be set to the following:

- 90% Community
- 10% Team
 - Staking rewards will be set to a limited number of wallets, with an unlock period of 12 hours.

GOAL:

- The team will maintain 50% of the Adjusted Total Supply in staking. For the purposes of this calculation (Total Supply - Burned Liquidity - Burned Supply = Adjusted Total Supply)
- Fees generated will be divided into 3 initiatives:
 - Supporting \$WILLY
 - Supporting \$ALPHA
 - Supporting \$USTC
- Fees will be used for providing liquidity to the pools, marketing and future CEX listings, burning of the supply, promotions, and other uses as needed.
 - We reserve the right to change how fees are maintained should it adversely affect any of the initiatives, or the needs of the project change.
 - For up to the first month, all fees will be directed towards \$WILLY to help give it a good launch, before the divide mentioned above

Welcome to a Cross Chain Universe

At launch, 50% of the supply will be purchased and immediately staked. This 50% RATIO will be maintained indefinitely as the supply is incrementally burned

"can't believe we're burning my Willy"

Revenue earned from staking fees will be split:

33% - Support \$WILLY

33% - Support \$USTC

33% - Support \$ALPHA

Two Chains  One Goal

Why Join Willy's Party?

Pure Entertainment:

Wild Willy represents a light hearted meme. Think of it as a ticket to the funniest show in town, but with the potential for some pocket change.

Community Driven:

Wild Willy thrives on community engagement; memes, contests, and bunny-themed events. Your social media influence, creativity, and imagination helps fuel this machine.

Serious Business Here:

Wild Willy isn't here to solve global issues or disrupt industries. He's here to disrupt your boredom and maybe your wallet, but in a good way. Willy is designed to be self sustaining and offer steady growth rather than pumps and dumps. \$Willy should grow and have staying power for the long haul. Willy isn't your typical investment; it's an invitation to join a party where the entry fee is a laugh and the potential reward is a grin. So, hop on-board Willy, share the joy, and let's make the blockchain a little wilder, one bunny hop at a time!

Risks and Disclaimers

Investing in Wild Willy is like betting on a rabbit in a horse race - it's fun, unpredictable, and you might just win.

But remember, this is a memecoin.

There's no intrinsic value beyond the fun we create together.

So, invest only what you can afford to lose because there are no guarantees of profit.
